

## Project Design

### Problem – Solution Fit Template

Date	20 Feb 2026
Team ID	LTVIP2026TMIDS60253
Project Name	Asset Management Portal
Maximum Marks	2 Marks

#### **Problem – Solution Fit Template:**

The current asset management process is inefficient due to manual tracking, delayed approvals, and lack of real-time updates. This leads to confusion, asset misplacement, and poor accountability. The proposed solution is to build an Asset Management Portal that automates workflows, tracks assets in real-time, and provides a user-friendly interface for employees and administrators.

#### **Purpose :**

1. To ensure the solution directly addresses real user problems.
2. To validate that the proposed portal adds practical value.
3. To align development efforts with user needs and expectations.
4. To reduce the risk of building unnecessary or unused features.
5. To increase the chances of adoption and success of the portal.
